

**Village of Lansing Accomplishments**  
**May 1997 through February 1998**

- Construction of a new addition to the Village Office, providing much needed meeting space
- Water main improvements along Uptown Road
- The first phase of a three-year construction project to replace the elevated water tank at the airport
- Repaired more than one third of inflow and infiltration into the Village sanitary sewer and pursued a modest increase in our available sewer capacity
- Maintained 12 miles of Village roads in a safe and cost-effective manner

*MOST IMPORTANTLY*

- Succeeded in getting the North Trihammer Road construction project into the New York State Department of Transportation's improvement project list making it eligible for 80% federal funding.
- Made significant progress in developing a Comprehensive Plan for the Village which is expected to be complete by summer 1998
