

March 2023 Newsletter

VILLAGE OF LANSING *Incorporated 1974*

2405 North Triphammer Road * Ithaca, NY 14850 * 257-0424 * (FAX) 257-3230

Office Hours: Monday - Thursday, 9:00 AM - 1:00 PM

Web Page Address: www.vlansing.org.

Board of Trustees' Meetings: 1st and 3rd Monday, 7:30 PM

Planning Board Meetings: 2nd Monday and last Tuesday, 7:00 PM

Board of Zoning Appeal Meeting: 3rd Tuesday as needed; 7:00 PM

Currently all meetings are being conducted in person and via Zoom. Meetings are posted on YouTube.

COMMENTS FROM THE MAYOR

Welcome to the Village of Lansing Spring 2023 Newsletter. Mother Nature and Old Man Winter keep throwing some cold, windy, snowy days at us, but Spring is around a close corner. I came across a quote from Mark Twain that sums our weather up succinctly – “In the Spring, I have counted 136 different kinds of weather inside of 24 hours.” No matter what weather conditions were thrown at us, the Village’s DPW crew worked early and long to keep our roads and sidewalks safe for us all. Once again, they deserve a heartfelt thank you for their dedication and service to the Village.

As the winter conditions loosen their grip, Village projects will begin, or pick up, where they stopped last Fall. The Village/Town Sanitary Sewer Expansion Project along East Shore Drive and Cayuga Heights Road has restarted and will continue through much of the 2023 construction window. Another large project is the road, sidewalk, and streetlights work planned for Dart Drive this construction season. These are major projects for the Village, and residents and drivers should plan for infrastructure work and traffic interruptions and diversions as the work proceeds. There will be park and trail projects this year, too; see the “Greenway Committee” article in this newsletter for more information.

All the planned projects are included in the Village’s 2023-24 budget proposed by the Trustees. A public hearing on the proposed budget is scheduled for the April 3rd Trustees Meeting at 7:40 PM. Due to an increase in the assessed value of the Village properties we are able to keep the tax rate the same at \$1.50/\$1,000 of assessed value, but there will be an increase in the Village’s water surcharge from 50 percent to 60 percent. This surcharge increase addresses our Village’s aging water infrastructure maintenance and replacement costs. Copies of the Proposed 2023-24 Budget are available in the Village Office, and it is posted on the Village website.

Our Village Boards have some new members. Jeff Dobbin had to resign as a Trustee for health reasons, and Drew Riedl was appointed to fill Jeff’s office through the end of April, 2023. In December, Trustees appointed Yamila Fournier as the alternate member for the Planning Board. Trustees appointed new Board of Zoning Appeals members, Andreea Minca and Marcie Robinson, at the March 16th Staff/Trustees meeting. We welcome Drew, Yamila, Andreea, and Marcie to their new positions and thank them for volunteering to serve our Village.

Some new services have opened or are expanding in the Village. If you drive by or visit The Shops at Ithaca Mall, you will see that Cayuga Medical Center has started construction on about 108,000 square feet in the former Sears, BonTon, and a couple of smaller interior corridor storefronts. The Alcohol & Drug Council of Tompkins County recently opened their Open Access Center at 2353 N. Triphammer Road to provide access for addiction treatment services 7 days/week and a medically-supervised detox and stabilization unit. On March 17th, Senator Kirsten Gillibrand visited the Village's new Veterans Affairs Outpatient Clinic of Tompkins County at 2309 N. Triphammer Road which provides primary care and specialty health services for veterans, their families, and survivors.

Please plan to vote in the April 25th Village election. The polling hours are from noon to 9 PM at the Village Offices polling location. Voters will elect a mayor (2-year term), two trustees (2-year terms), and one trustee (1-year term to complete Jeff Dobbin's 2-year term.)

Last, but not least, please remember to set out your brush and limb waste for this Spring's Brush Pick-Up on Monday, May 1, 2023.

Ronny Hardaway, Mayor

VILLAGE CLERK'S OFFICE

Water /Sewer Rate Increases as of April 2023 Billing for Village Residents

In January 2023 SCLIWC raised their water rate from \$5.77 to \$6.03 per 1,000 gallons of water. The Village surcharge increased from 50% to 60%. The surcharge has not been raised since 2020. We are seeing increased maintenance costs with aging infrastructure, and this is basically the only source of income for the Water Fund. Starting with your April bill the cost for 1,000 gallons of water has increased from \$8.66 to \$9.65 or a minimum of \$48.25. The Village of Cayuga Heights has also increased their sewer rate from \$5.20 to \$6.00/1,000 gal. Including the Village surcharge, the new sewer rate has increased from \$6.64 to \$7.51 per 1,000 gallons of water or a minimum of \$37.55.

Water/Sewer Bills

Bolton Point implemented eBilling of Village of Lansing water and sewer bills. If you are interested in receiving your bill via email, please sign up at boltonpoint.org/ebilling. You may want to sign up for both email and mailed bills to start to make sure there are no issues with you receiving a bill electronically. At this time you cannot pay your bill electronically. ***PLEASE NOTE: You must provide your account number to complete this registration. It is a two-step process and if you do not complete both you will not receive an email bill. If you have signed up and do not get an ebill please contact the office and I will help get the issue resolved.***

Village of Lansing Residents receive a bill quarterly at the beginning of January, April, July, and October. You will receive a postcard bill if you have not signed up for eBilling only. All water/sewer bills are due by the 20th of that month and can be either mailed in or you may bring your payment to the Village Office at 2405 N. Triphammer Road. There is a secure drop box inside the entry way to our administration building for you to drop off your payment anytime. The Village does not accept credit card payments. The Village of Lansing is part of the Southern Cayuga Lake Intermunicipal Water Commission (SCLIWC).

Tax Bills

I have people come in the office and ask when their tax bills are due so I thought it would be worth a review. As a Village resident you get three different tax bills. The Village of Lansing tax bill goes out June 1st and is due by July 1st. This bill covers the period from June 1st to May 31st and is the only bill you pay at the Village of Lansing. Town & County tax bills go out January 1st and school tax bills go out in September if you are in the Lansing School District and in October if you are in the Ithaca School District.

Both the Village and the Town of Lansing have your tax information on their websites. On the Village website if you go to the tabs at the bottom of the page you will see “Tax Information Lookup”. This takes you to our Taxglance Lookup Program. Currently, there is 14 years of past tax bills for you to see. If for some reason your bill does not get to you, you can always go here to print a copy of your tax bill. After your payment is processed you can also print a copy of your receipt here. If you prefer to get a receipt mailed to you, please make sure you check the box to receive one when you send in your payment.

Notary Services

Notary public services are available free of charge to Village residents at the Village Office. Residents are asked to telephone the Village Office at 257-0424 ext. #2 or email Jodi at clerk@vlansing.org to arrange a time for this service.

Village Meetings

Currently, all our meetings are being conducted in person and online via Zoom. If you are interested in attending a Board of Trustee meeting via Zoom, please contact Jodi at clerk@vlansing.org. If you would like to attend a Planning Board or BZA meeting, please contact Mike Scott at codeofficer2@vlansing.org.

Village Sponsored Street Tree Planting Program

Village of Lansing residents can get reimbursed for up to two street trees per year up to \$100 each as part of the Street Tree Planting Program. The Tree Planting Application can be found under Applications and Forms on the Village website. The applications can also be found in the brochure rack in the Village Office foyer.

Jodi Dake, Clerk/Treasurer

VILLAGE HIGHWAY DEPARTMENT

Spring Brush Pick-Up

Spring brush and limb pick-up will be provided by the Village and Town of Lansing Highway Departments on Monday, May 1, 2023. Residents are asked to leave up to one pick-up truck size load near the roadside by 7:00 am. To assist the work crews, all limbs and brush (up to 5 inches in diameter) should be piled with the cut ends facing the same direction. The limbs should be no longer than 6 feet in length. Also, the piles should not be tied, but should be left loose. Please do not put out bags of yard waste. This pick up is only for limbs and brush.

Warren/Brown Water Project

R.B. Robinson Contracting, Inc. has substantially completed the Village of Lansing Warren/Brown Road Water Replacement Project. Remaining items include soil stabilization and miscellaneous blacktop repairs. We would like to thank all those that were affected for their cooperation and patience as this project will provide continuous water quality and supply for years to come.

Sewer Expansion Project

Vacri Construction Corporation started the Cayuga Heights Road Sewer Benefit Expansion Project last fall and has resumed working. There was a need to clear some trees and brush along the sewer corridor but the project includes an extensive tree replanting plan that is scheduled for the fall of 2023 and spring of 2024, as this is the best times of the year to assure the trees survival.

The substantial completion of the project is scheduled for the end of 2023. This is when residents may begin to schedule their connections to the sewer main. The Village will provide a service tap to the main at the Village/State right of way limits to reduce the costs for the homeowner and allow the tap to be pressure tested with the main during the testing procedures. To keep the Village contractor on schedule and to avoid conflicts, we encourage you to source an outside contractor. The Village will work with the homeowner and/or their contractor to best position the wye tap to best fit the terrains of the property. Most of the system was designed to be gravity fed except for a few properties requiring a pump system. Mike Scott or Jodi Dake will assist you in the sewer permit process and can be contacted at 607-257-0424, follow the prompts for the Code or the Clerk/Treasurer's office.

The project will have some travel delays and restrictions and we encourage you to plan accordingly when the project is in full force. Most of the time maintenance and protection of traffic will maintain one lane use of the roads, but delays will be expected.

Please contact me to if you have any questions or concerns for the project or to go over the best location for the property connection. My cell is 607-280-4893 or by email at dpw@vlansing.org

John Courtney, Superintendent of Public Works

CODE & ZONING DEPARTMENT

I would remind everyone that there are numerous scenarios in which a building permit would be needed. I encourage individuals who are interested in additions, new construction, remodeling, installation of new heating equipment, decks, pools, etc. to contact me at codeofficer2@vlansing.org with any questions you might have.

Homeowners, when a building permit is issued to you (or via your contractor), it is ultimately your responsibility to make sure project inspections are requested and completed. A list of required inspections are printed on the official building permit. Please make sure that your contractor has contacted me, especially at the conclusion of your project for a Certificate of Compliance.

Now that the snow has melted, I would like to remind our local businesses and homeowners to please help keep this Village beautiful by checking your property for garbage and debris that has collected through the winter.

Also, please be aware that the NYS burn ban is now in effect through May 14th.

Please remember to check/replace the batteries in all Carbon Monoxide and Smoke Detectors.

Mike Scott, Code, Zoning & Stormwater Management Officer

PLANNING BOARD NEWS

In December, Yamila Fournier was appointed as the alternate member for the Planning Board. Yamila brings a wealth of knowledge and new perspective to the Planning Board. Her appointment also means that all positions on the Planning Board are full.

Major Projects

Maguire Chevrolet Cadillac, located at 35 Cinema Drive, was issued a special permit for updates to their existing building and property. Similar to the Nissan project that occurred previously, this project will include improvements to the interior showroom areas, service area, and body shop. There will also be landscaping updates to the property.

T-Mobile was issued a special permit related to upgrading equipment on the cellular tower located at 2350 North Triphammer Road.

Ongoing Projects

The Planning Board is continuing to work with Beers Properties LLC on their plans to develop 40 acres of vacant land between Craft Road and Bush Lane (the former Millcroft Phase 2 development). They plan on developing housing in this area and should be back before the Planning Board shortly to finalize their plans.

With somewhat an atypical lull in Planning Board items, we have devoted the last few meetings to working on the development of a Solar Law for the Village of Lansing. New York State provides a model law that municipalities can tailor, and the Planning Board has been working through that process. We hope to have something to present to the Board of Trustees for their consideration sometime this spring.

Planning Board meetings are held the second Monday and last Tuesday of each month, from 7pm to 9pm. In addition to attending in-person or virtually, you can also watch the recordings of our meetings on YouTube.

Mike Baker, Planning Board Chair

VILLAGE TRUSTEE REPORTS

Homelessness

Cornell University's Dr. Charley Willison is the author of "Ungoverned and Out of Sight", which analyzes the relationship between chronic homelessness and local governance. The Trustees invited Dr. Willison to learn more about potential policy options in managing a complex issue, which the Village is not immune. Her research focuses on practical policies amidst a fragmented governance structure (i.e., various layers of local, state and federal oversight). The dialogue with Dr. Willison will be an interactive, roughly 30-minute session, open for questions at the end. Dr. Willison will attend the Village of Lansing Trustees' April 17th 7:30 PM meeting.

Drew Riedl, Trustee

Update from Ainslie

It has been an honor and a privilege to have been elected to serve the Village of Lansing as a Trustee in 2022. It has been a busy year serving as the Village of Lansing Liaison to the Cayuga Lake Watershed Intermunicipal Organization, Tompkins County Joint Youth Commission and the Tompkins County Youth

Services Advisory Board. These vibrant and active organizations are working on our behalf to serve our youth and to ensure our water resources are well managed. Links to these organizations can be found on the Village of Lansing website. I encourage you to take advantage of the resources available and to get involved if you have the interest and time.

Susan Ainslie, Trustee

Trustee O'Rourke Retiring

After 14 years of service, I am resigning from the Village of Lansing Board of Trustees. I have had a wonderful experience on the Board, especially with fellow board members and employees of the village, as well as members of the local community.

Some undertakings of the Board that I was fortunate enough to be involved with included the Tompkins County Youth Services Board, Tompkins County Council of Government (TCCOG), and the Village Deer Management Committee. I have been responsible for checking and balancing the financial records of the Village. I also initiated a Wall of Recognition for our founding members of the Village that recognizes our Mayors since the Village of Lansing was chartered by New York State in 1974.

The smooth running of government owes much to the quality of our personnel and an open productive relationship among all members of the Village Government. It has been a pleasure to serve the Village and work with my colleagues and Village residents on the issues and challenges we face in keeping our community safe, environmentally friendly, and financially stable. I thank you all sincerely and wish the Village the best of success in its future activities.

Patricia O'Rourke, Trustee

Invitation to Meet with The Mayor

Members of the public are invited to register to meet with Mayor Hardaway via a Zoom conference every Wednesday afternoon between 2 to 4pm. This meeting is an informal, "open-door" meeting in which each registrant may speak or ask questions about any Village-related topic. If a registrant raises a topic or question that the mayor cannot discuss or answer, they will be informed before or during the meeting. There are up to four, 30-minute time slots available during the Zoom conference. All visitors will be placed in a Zoom waiting room and will be admitted to the meeting in the order of their registration. Please visit the Meet with the Mayor page and click on the "Meet with the Mayor" registration link: vlsing.org/2021/08/11/register-to-meet-with-the-mayor.

Climate Smart Communities (CSC)

The Village CSC Task Force is finalizing the Natural Resources Inventory (NRI) document with the assistance of the Cornell Cooperative Extension's Energy & Climate Change Department. This document describes the natural resources of our Village area, highlights relevant data, and interprets the results, according to the New York DEC and Hudson River Estuary Program. The NRI will supply information that forms a basis for Village municipal planning, and it acts as a regional atlas that may be used when updating or developing local regulations. The inventory can aid in the process of land-use planning, review of proposed development plans, and completing environmental assessments.

The CSC Task Force is also documenting and submitting evidence for residential organic waste programs, adopting the NYS Unified Solar Permit, and planning and infrastructure for bicycling and walking. For more information, visit the CSC Task Force page at vlsing.org/climate-smart-communities.

Clean Energy Communities (CEC)

The CEC Task Force meets simultaneously with the CSC Task Force because many of the two programs' efforts are identical. By meeting the requirements of one, requirements are met for the other program. Last year, the Village of Lansing earned the designation of a CEC community and was awarded a \$5,000 designation grant. Task force members continue to work CEC goals to adopt the NYS Unified Solar Permit and to start new community campaigns for clean heating and cooling and energy efficiency. Implementing and receiving NYSERDA points for completed CEC actions, the Village will be eligible for future competitive grants to achieve clean energy goals to use resources more efficiently, save taxpayer dollars, create jobs, and drive local economic development. For more information on our CEC goals and achievements, please visit the Village website page, vlansing.org/clean-energy-communities.

Greenway Committee

On January 18th, Greenway Committee members met with DPW staff, John Courtney, Chris Zavaski, and Nick Dean, to tour all the Village parks and plan future improvements and maintenance. Ned Hickey Park (corner of Craft Road and Leif's Way) will have installations of a pavilion, a basketball half court, a bench, and a paved walkway during the spring/summer DPW work schedule. Also, the south entrance to Shannon Park will be renovated with a small culvert. Greenway Committee Members and the DPW staff planned landscaping for the parks with new trees and flowers along with maintenance for existing Village trails and walkways. The tour and discussions with the DPW staff allowed the Greenway Committee to provide input into the Village's 2023-24 budget's Recreation and Beautification categories. For more information on the Greenway Committee, please visit the website page, vlansing.org/greenway-committee.

Safe Streets for All (SS4A) Plan Awarded USDOT Grant

Last year, the Village of Lansing and nine other local municipalities joined the Tompkins County SS4A Joint Safety Action Plan. On February 1, the U.S. Department of Transportation announced that the grant application, led by the City of Ithaca, was successful. The grant is for \$600,000 with a \$150,000 local match for a total \$750,000 project. The Village's share of the local match is \$3,620. The goal of the project is to develop Safety Action Plans for all municipal applicants, which will facilitate applying for future project implementation funding. The Safety Action Plan will include public outreach, establishing Vision Zero policies and safety analysis and recommendations. The proposed Safety Action Plan will gather and document activities in the participating jurisdictions to support a significant reduction or elimination of roadway fatalities and serious injuries involving various road users, including pedestrians, bicyclists, public transportation users, personal conveyance and micro-mobility users, motorists, and commercial operators, within a suggested timeframe.

Ronny Hardaway, Mayor

TOMPKINS COUNTY LEGISLATURE

Every spring, the County Legislature and staff look to Albany to see what impact the New York State budget will have on county government and our taxpayers. This year, the State's budget process concerns us more than usual, primarily because of the Medicaid cost shift that's buried in Governor Hochul's budget.

Understanding Basic Medicaid Funding

Medicaid is a federal entitlement program that provides health and long-term care insurance to low-income families and individuals. States administer their Medicaid programs subject to Federal oversight and subsidy. Medicaid is the largest source of health coverage in the United States, covering almost a quarter

of our population. Medicaid operates and is jointly financed as a partnership between the Federal and State governments, with varying contributions from counties. New York is one of eighteen states that mandate county contributions towards the costs of its Medicaid program. In fact, New York counties make the highest mandated contributions in the country, sending nearly \$7 billion a year, or \$140 million per week, to Albany for Medicaid costs. Tompkins County's annual Medicaid contribution of over \$10 million is by far our largest mandated payment.

Enhanced Federal Medicaid Funding (“eFMAP”) and the County Contribution

The Affordable Care Act (ACA) sought to expand Medicaid coverage throughout the United States, and rewarded states that had already expanded their Medicaid coverage by enhancing the Federal Medical Assistance Percentage (the amount of Federal matching funds contributed to State Medicaid programs) paid to those states. New York was one of the states that received an enhanced Federal Medicaid Assistance Percentage (eFMAP) under the ACA.

Senator Schumer, speaking for the New York State congressional delegation, made it clear that the ACA eFMAP funding should be shared by state government with the counties. And, for a while, the State did share. Albany estimated that the eFMAP funds would reduce the counties' contributions to State Medicaid costs by about 20% and reduced the counties' weekly Medicaid contributions by amount. It was understood that there would be a reconciliation at the end of each year, with the State paying the Counties to the extent that the actual eFMAP funding exceeded 20% of the counties share. The last time reconciliation payments were made was in 2017.

Responses to requests made under the New York State Freedom of Information Law, New York State currently owes its counties several billion dollars in ACA eFMAP reconciliation payments. We are advised by NYSAC and others with knowledge of the State's finances that those billions are spent and gone.

Governor Hochul's Plan to Intercept and Keep eFMAP Funds in Albany

Governor Hochul's budget assumes that all future ACA eFMAP funds will be kept and used by Albany to pay the State's share of its Medicaid costs, effectively increasing the counties' mandated share of the program costs. During this next NYS fiscal year alone (4/1/2023-3/31/2024), this will shift \$625 million in Medicaid costs to counties and county taxpayers. And, since the Governor has made it clear that she intends to expand Medicaid coverage and increase payments to providers, the amount of the cost shift will only grow every year.

Unfortunately, the ACA eFMAP provisions are not as clear as they should have been with respect to allocating the additional funding between the State and the Counties. The change in the Governor's treatment of the eFMAP funding will be effectuated by the executive agencies' "re-interpretation" of the ACA (an interpretation that conveniently lets the State off the hook for the billions in reconciliation payments it hasn't made since 2017), and not by State legislation. That means that the State Senate and Assembly cannot provide a legislative fix, at least not within the State budget process. The Senate and Assembly one-house budget bills propose approximately \$625 million in additional aid to counties to make up for the initial impact of the Governor's proposal, but that will not provide long-term relief to the counties.

Why You Should Care Enough to Read This Far

This cash grab by the Governor will blow a \$600,000+ hole in Tompkins County's 2023 budget. We may have the fund balance to accommodate that, but we cannot use fund balance to sustain the increases in

2024 and beyond. We estimate that Tompkins County’s mandated Medicaid contribution will increase by close to \$1.5 million in 2024, an amount that translates into a nearly 3% tax levy increase. Driven by the impact of this one change in the Governor’s budget, our choices will be to increase your property taxes, cut services, or both. And we all know that we’re facing other serious economic issues that will have a substantial impact on our budget decisions for 2024 and beyond.

What You Can Do

To learn more about this issue, you can visit NYSAC’s issue-specific website at <https://www.costshiftcountdown.com/>, where you will find tools for citizen advocacy against the Governor’s proposed intercept of the ACA eFMAP funds. And you can communicate your opposition directly to the Governor through the contact form at <https://www.governor.ny.gov/content/governor-contact-form>.

Thank you for your support!

Deborah Dawson, Tompkins County Legislator, District 10

TOMPKINS COUNTY RECYCLING

Tompkins County offers a single stream curbside recycling program. The recycling calendar is available at the Tompkins County Solid Waste Management Division office, Recycling and Solid Waste Center at the Drop-off Area, and online at www.recycletompkins.org. There are also copies available in our brochure rack in the Village Office vestibule, which is always open.

The Village of Lansing is a Food Scrap Recycling Drop Spot. On Saturdays from 10:00am-1:00pm Lansing residents can bring their food scraps to the parking lot behind the Village Office at 2405 N. Triphammer Road. Food scraps can include meat, bones and dairy and paper towels and napkins. You can also pick up compost containers and bags for free at the Drop Spot or at the Solid Waste Office. Bags are also available in the office during business hours.
